

# Goals for this segment

- Take stock of where we are in the process
- Discuss feedback from June Special Meeting
- Discuss Possible Motion on Index

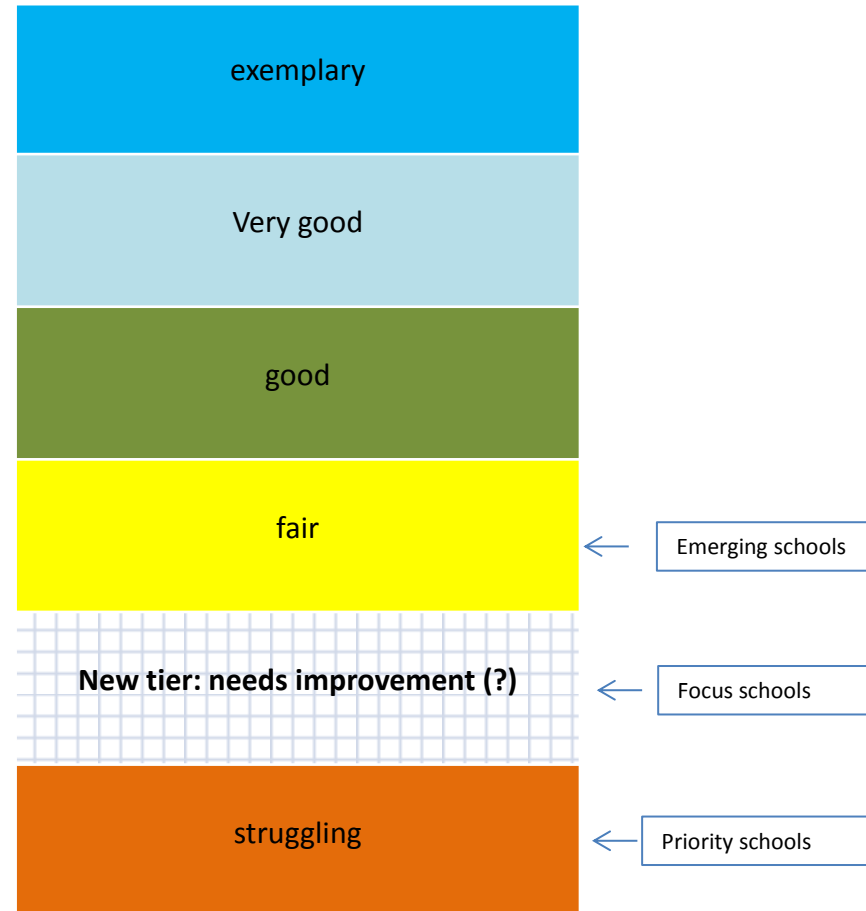

# June special meeting comments

- Concerns about how focus schools are handled in tiers.
- Concerns about negativity of “struggling”
- Concerns about SGP methodology
- Concerns about timeline, perceived lack of technical vetting
- Public comment was very valuable
- Others?

# Different Tier Label Options Offered by Member Maier

Index Tiers	Federal Categories
Exemplary	Reward - top performing and top improving schools with no achievement/opportunity gaps that are not closing - approx 5%
Very Good	to be determined
Good	to be determined
Fair	Emerging Schools - approx 15%
Struggling	Priority and Focus Schools - approx 15%

## Option – Add 6<sup>th</sup> Tier

# Different Tier Label Naming Options, if 6<sup>th</sup> Tier is Added

## Option – Add 6<sup>th</sup> Tier

### Considerations:

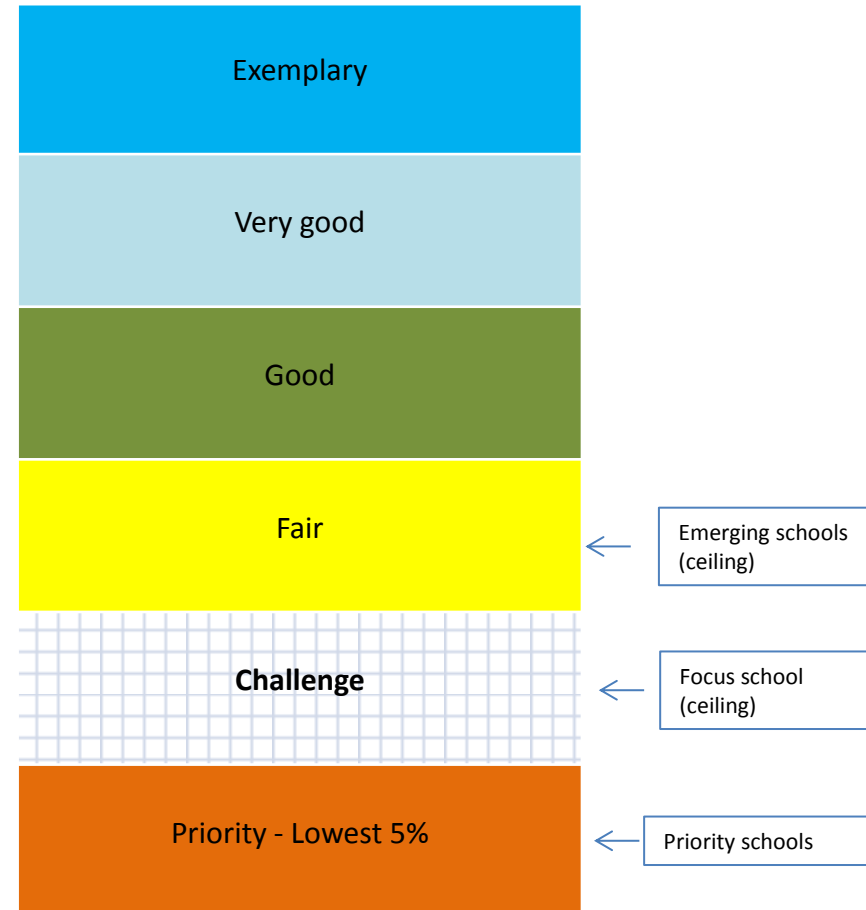

- How to handle focus schools is not necessarily linked to a 6<sup>th</sup> tier option.

- Asking for motion of the Board – Goal is to ‘turn the page’ from policy design to technical vetting and federal approval process.
  - Adopt this Index redesign as provisional Index, including any modifications made today (ELL, etc).
  - Direct process of technical vetting, including opportunity for districts to see their data before stakes are attached.
  - Direct staff to submit design to federal US Dept. of Ed for their consideration. Initiate iterative approval process.
  - Specify in submission that SBE anticipates modifications, either as a result of technical testing or, more likely, the transition to Common Core.
  - *We are in a time of transition.*
