

### Talking Points on Graduation Requirements

Stakeholder Input	Options
24-credit framework crowds out electives.	Show general electives as unchanged.
CTE pathways need to be incorporated.	Create “personalized pathway requirements.” Change “occupational education” credit to “Career and Technical Education.”
Make sure students have enough free electives to pursue courses at a skills center.	4 electives + 3 personalized pathway requirements creates a combined 7 available credits.
Embrace a broader definition of college to include postsecondary education and training.	Use “pathways to postsecondary” as branding term for requirements.
The third credit of science and math make it harder for students to attend skills centers.	Develop state models of math and science course equivalencies. Students should get credit for the math and science they take at skills centers.
