

Reengagement Programming: A Pathway for Each Student

Office of System and School Improvement

Office of Superintendent of Public Instruction

Chris Reykdal, State Superintendent

Vision:

All students prepared for post-secondary pathways, careers, and civic engagement.

Mission:

Transform K–12 education to a system that is centered on closing opportunity gaps and is characterized by high expectations for all students and educators. We achieve this by developing equity-based policies and supports that empower educators, families, and communities.

Values:

Equity Statement:

Each student, family, and community possesses strengths and cultural knowledge that benefit their peers, educators, and schools.

Ensuring educational equity:

- Goes beyond equality; it requires education leaders to examine the ways current policies and practices result in disparate outcomes for our students of color, students living in poverty, students receiving special education and English Learner services, students who identify as LGBTQ+, and highly mobile student populations.
- Requires education leaders to develop an understanding of historical contexts; engage students, families, and community representatives as partners in decision-making; and **actively dismantle systemic barriers, replacing them with policies and practices that ensure all students have access to the instruction and support they need to succeed** in our schools.
